DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 21-34, drawn to grinder head comprising a fixed boss, classified in class 241, sub class 117

Group II, claim(s) 35-39, drawn to a subcombinational bowl for a grinder, classified in class 241, sub class 228

Group III, claim(s) 40, drawn a sub-combinational base plate for a bowl of a grinder, classified in class 408

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group I does not require the particulars of the inventions of Groups II and III (subcombinations), as evidenced by claim 1.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
